

Treen Class

Autumn Term 1: Who are you?

Teachers:
Monday—Thursday: Mrs Murgatroyd
Friday: Miss Stephens

This term in Treen Class, we will be learning all about ourselves and each other! We will be settling into school life and learning the routines of the school day: learning the layout of the school, how to behave in school, adapting to routines and meeting other children.

Our main focus will be kindness and acceptance and being good friends to each other. Through the stories 'Grandad's Secret Giant, Elmer and The Smartest Giant in town, we will explore these key areas.

Maths

In maths, the children will be exploring numbers to five and investigating, comparing, counting and sorting numbers within 5. This will be through play and investigation linked to our topic. They will also recognise 1p, 2p and 5p coins.

Real Life Experiences

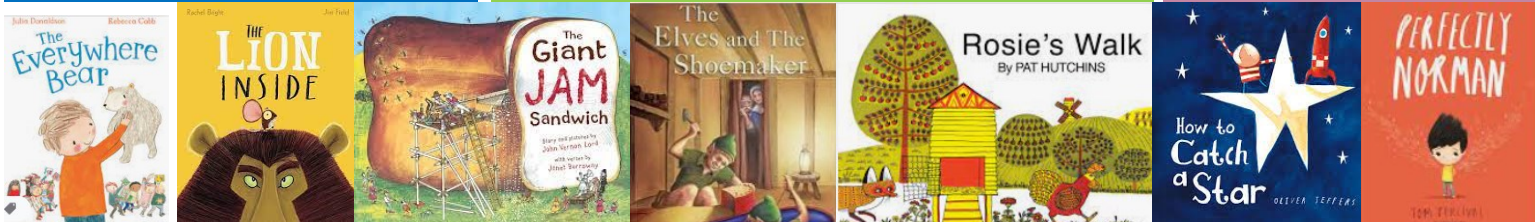

- Meeting other children throughout the school.
- Exploring our classroom.
- Using knives and forks to eat.
- Meeting key member of our community.
- Walking around our village and visiting the local shop.
- Harvest.

Science

In Science we will be thinking about Animals including humans: naming body parts and understanding how to make healthy choices. We will also focus on the fact the humans and animals grow.

Phonics

We will focus on listening skills initially and then move onto Phase 2 phonics which will enable your child to recognise the most frequent sounds used and help them to begin their reading journey. Please come along to our meeting to find out more, there is also lots of information on the school website.

Art

In art we shall be creative using nature to inspire collages and we will be exploring our favourite colours and how to mix them. The children will explore different ways to manipulate materials and generally get a bit messy! (sorry)

Music

We are incredibly lucky to have been chosen to take part in a twenty-week long music project with an EYFS specialist from the Cornwall Music Service Trust. We will also sing every day and listen a variety of music from all over the world and throughout History.

ICT

The children will develop their fine motor skills to be able to control images on a screen and by using a mouse. We will help them to find certain letters on a keyboard and discuss elements of e-safety.

RE

The children will discuss why the word 'God' is important to Christians.

PE

The children will develop their coordination: of footwork and static balance trying to balance on one leg.
