## Cherish Wellbeing Activities - Parent Information for KS2 children only (Godrevy and Fistral)

'Cherish' is a new venture that helps children to feel happy within themselves and to flourish in school through a daily mental health workout. Short stories and activities support children to be more resilient, calm, focused and balanced in all areas of life.

This is a very exciting opportunity for your child to practice using skills and virtues such as communication, confidence, purposefulness, responsibility and cooperation.

It is based on personal and academic research, and supports children to develop their understanding of how their thoughts, feelings and behaviours are based on patterns / habits / experiences / stories, and how easily these can be changed.

We would like to give your child the opportunity to take part in these daily mental health workouts. The benefits are vast and include learning and practising lots of different wellbeing tools, developing language and vocabulary around wellbeing, having a collective, calm, fun and enjoyable start to the day, and developing positive habits and beliefs about themselves.

In order to evaluate the impact of these daily activities, we will ask your child to complete a questionnaire before and after the programme.

If do not wish your child to participate in the questionnaire, please inform your child's class teacher.

If you have any further questions, please feel free to contact Tracy Firth via the website: [www.cherishlearning.co.uk](http://www.cherishlearning.co.uk).
