

Pippa Moran – Co-opted Member

I am a Clinical Psychologist with over 20 years working with children and young people and their families, currently specialising in assessment and therapy for mental health difficulties as well as providing and overseeing ADHD and ASD diagnoses. My work has scoped across CAMHS, paediatrics and early years provisions. I have grown and run an independent practice over the last 10 years and worked and grown the business to increasingly meet the wishes and needs of the local community.
